

Electric Rotary Couplings

Electric Rotary Couplings

MANIFOLD complete with:

- up to 1200A current carrying capacity power rings
- ancillary 20A power rings
- rings for remote controls or computer signals.

RATED CABLE VOLTAGE: 1000 V. (approx)

TEST VOLTAGE: 3000 V. (approx)

RINGS: copper alloy (brass for ancillary and bronze for power rings)

BRUSH HOLDER: forged brass, with double arm to assure continuous contact and better rings cleaning.

BRUSHES: metalcarbon for power and ancillary rings. Silvercarbon for rings remote controls or computer signals.

ELECTRICAL SUPPLY:

a) Connection of power rings: the cables pass through the hollow shaft and must be wired directly to the rings.

b) Connection of ancillary rings: 1) by means of unipolar cable tail already manufacture-connected to the rings. 2) through terminals board already manufacture-wired to the rings.

c) Connection of brush holder: two ring fastenings are fitted at the main base. The cables must be wired directly to the brush holders.

INSULATION: air and glass resins

PROTECTION: IP 55.

HOUSING: very sturdy metallic box fitted with two inspection doors and cast aluminium or steel head, according to dimensions.

Bolts and nuts: treated steel.

The inner housing has been manufactured according to Al-SI 304 rules or tropicalized.

The outer part has been painted with one coat of primer and two of environment resistant paint. Color is manufacture standard (except in case of specific request from Customers). The structure is also fitted with eyelets for lifting and handling.

OPTIONALS: Anticondensate resistance

Terminals board for brush holder

Terminals board for ancillary rings

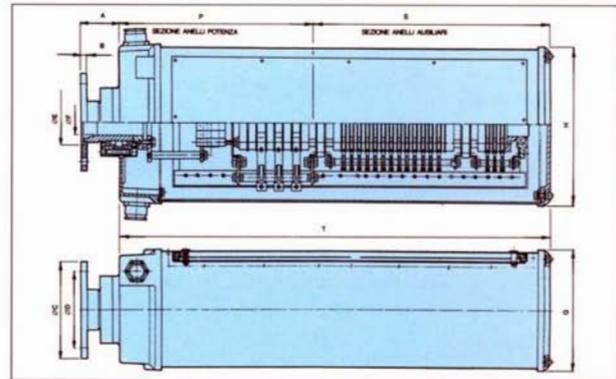

Unipolar cable tails already connected

Four inspection doors

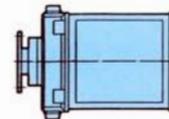

Can be assembled together with joints for fluid bore.

Example of Electro-Hydraulic Rotary Coupling Combination

Electro-Hydraulic Coupling Order code

Add to the standard hydraulic code: + x (x = n° of electric connections)

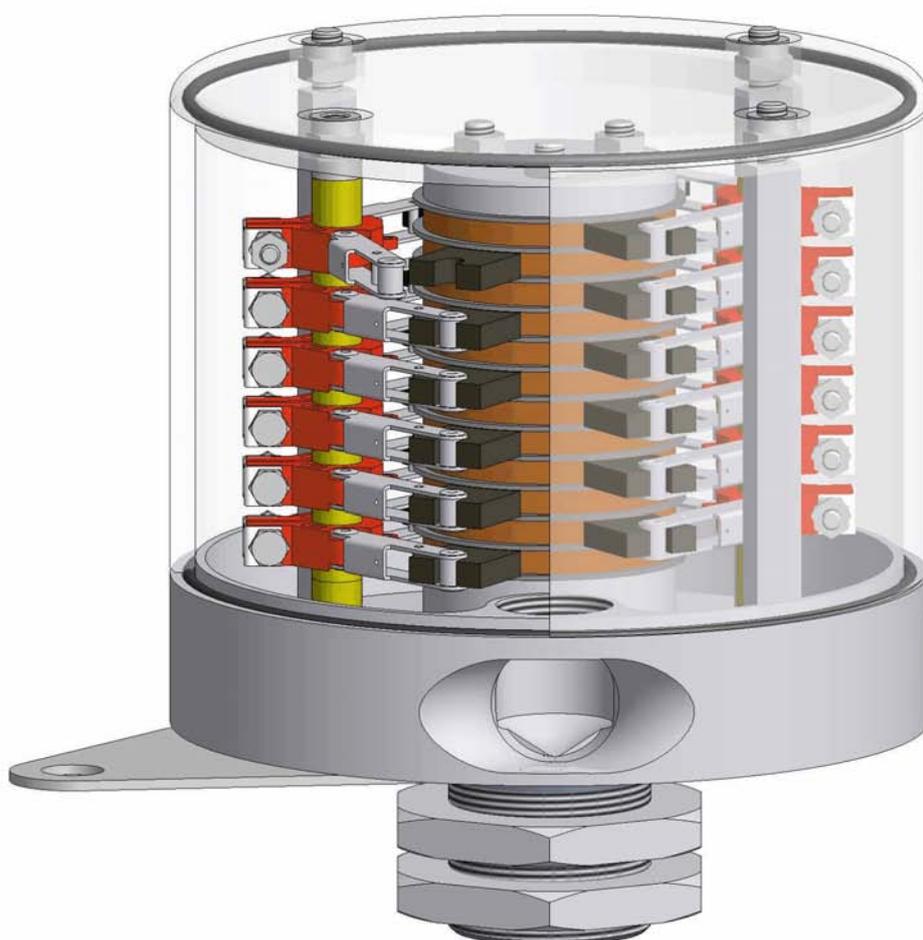

Example: Hydraulic Coupling diam. 125,7 Hydr.conn. + 6 El. conn. 3 mt cable length

Order Code = DI 125 - 7 + 6 - 3 mt

DISTRIBUTORE ROTANTE ELETTRICO

ELECTRIC ROTARY COUPLING

SR 150 SERIES

DISTRIBUTORE ROTANTE ELETTRICO SERIE SR 150
ELECTRIC ROTARY COUPLING SR 150 SERIES

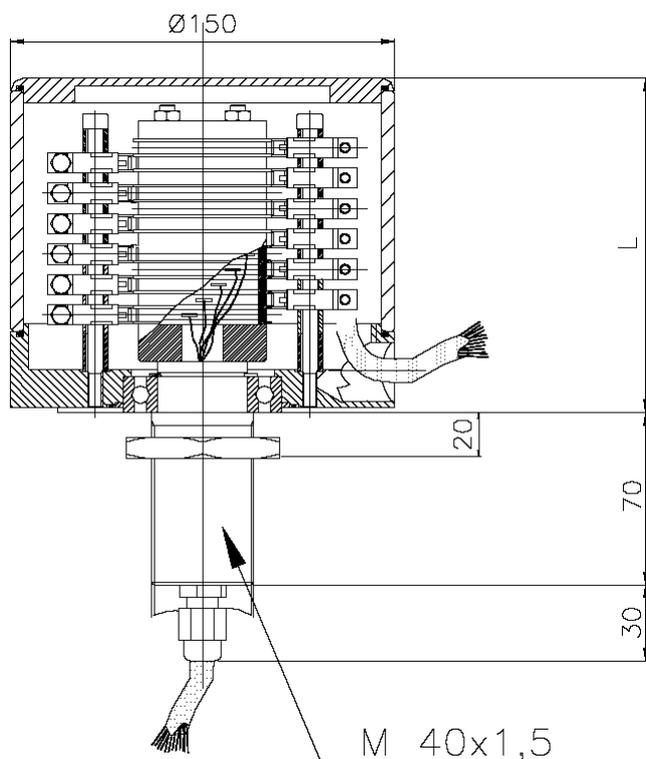

I distributori rotanti della serie SR 150 riassumono la trentennale esperienza HANSA-TMP nel settore della trasmissione di corrente elettrica per applicazioni di potenza, segnali, sistemi bus e video in diverse applicazioni rotanti.

Sono fornibili in combinazine con una grande gamma di giunti rotanti per olio, aria, acqua e gas.

The SR 150 series slip ring assembly are the result of HANSA 30-years-old experience in the field of current transmission for power applications, signals, bus and video systems in several rotating applications.

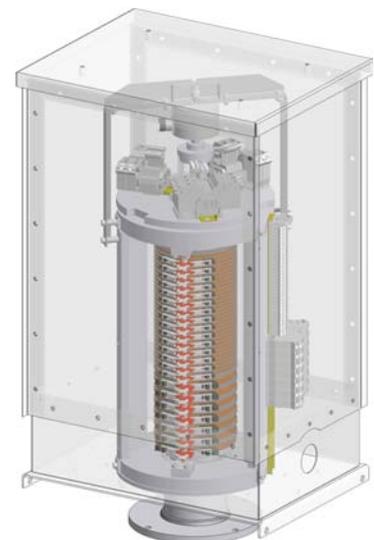

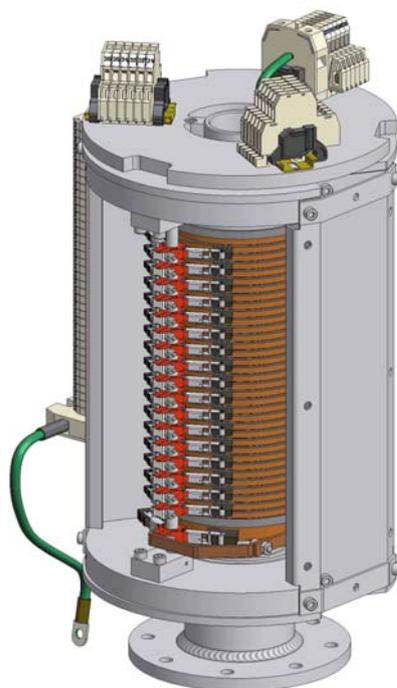

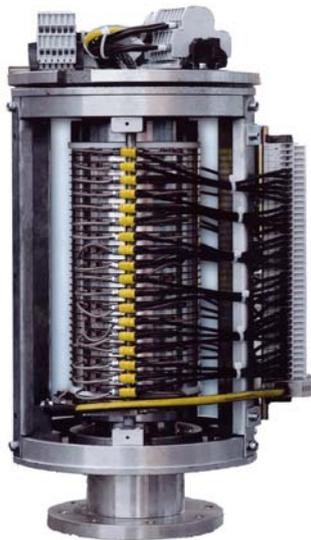

The series is available in combination with a wide range of swivel joints for oil, air, water and gas.
